

THE STRATEGIC LOCATION OF THE COUNTRY AND THE SPECIALISTS ATTRACT FOREIGN INVESTORS TO BULGARIA

Bulgaria has still not attracted so many foreign investors as the other countries in the Central and Eastern Europe. This is one of the main reasons for Bulgaria to be so attractive to foreign investors, said Pepa Dimitrova from **Tishman Management Company** at the international conference Bulgaria Dream Area. Bulgaria has a very strategic location and qualified young specialist. The fact that the country is a NATO member and the forthcoming admittance to EU are additional stimuli to the foreign investors, added Dimitrova. According to her the nature of the country is another asset. The need for quality management for real estate business and the possibility for implementation of serious projects attracted **Tishman** to Bulgaria, explained Mr. Dimitrova. **Tishman Management Company** is a daughter company of **Tishman International Companies** that is extremely experienced in financing implementing and managing real estate.
