

THE BIGGEST AMERICAN INVESTOR TO ENTER BULGARIA IN 2006

The biggest American investment is expected to enter Bulgaria next year. The value of the whole project that concerns the construction of electric power station in Martitza-Iztok-1 Plant is about EUR 1 B, said the US Ambassador in Bulgaria John Byerly. He specified that the company is called AES (American Energy Systems) and its main office is in Virginia. The value of the American investments in Bulgaria only for the last year is USD 400 M. The other bigger American investors in Bulgaria are Advent Technologies, that won the privatization of BTC, **Tishman International**, that will build a business park near Sofia Airport, and of course American Standart, which investments in Sevlievo exceed USD 105 M.
